Looking at the camouflage of wild animals we can see some very amazing patterns. Their fur is all original, and people like to duplicate that in their clothes sometimes!

We're working on some "Wild or Friendly" animal projects.

## Learning Themes and Topics

The last letter of the alphabet is "Z", and our Animal friend is Zack Zebra. Such a cool letter, just the sound of it makes us think of zzzippers, black & white stripes, and wild animal noises at the zoo, like the Lion House at the San Francisco Zoo. Petting zoos have friendly animals in them, but most zoos are for animals that are not friendly to humans. They all need special care, but not the hands-on variety.
